

USERGUIDE

Health has 2 options: perfect and good.

Perfect means cycle life from 0-2,000 times.

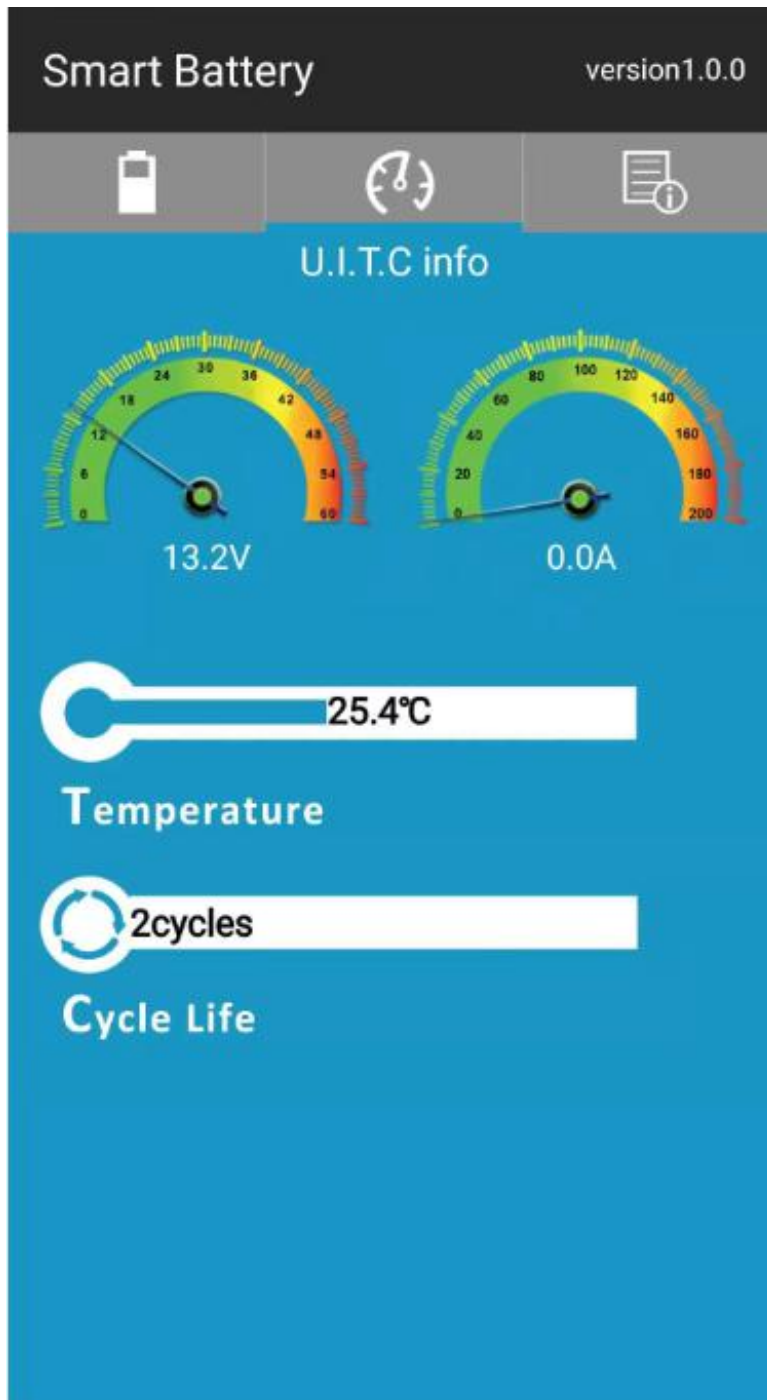

Good means cycle life over 2,000 times.

There are 3 programs for the status: standby, charging, discharging.

*SOC: state of charge, show the per cent of remaining capacity.

*Capacity: total capacity of battery pack, real time capacity.

*Voltage: real time voltage.

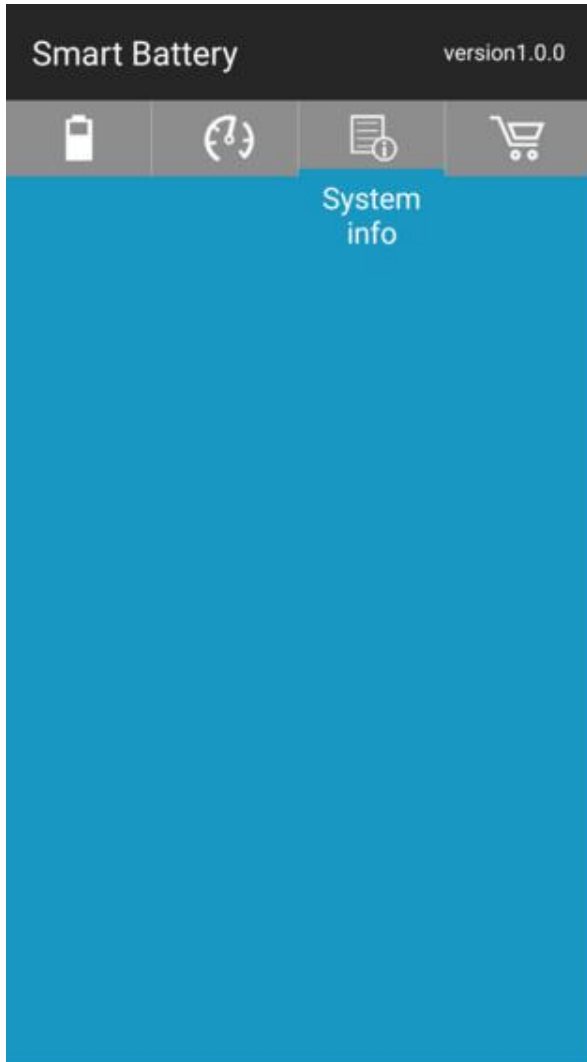

U.I.T.C means voltage, current, temperature and cycle life, all details shown in real time.

Din forhandler

GACELL A/S - Sletten 17 - DK 7500 Holstebro - 961 02 961

High voltage Year/month/date time

Low voltage Year/month/date time

Over current charge Year/month/date time

Over current discharge Year/month/date time

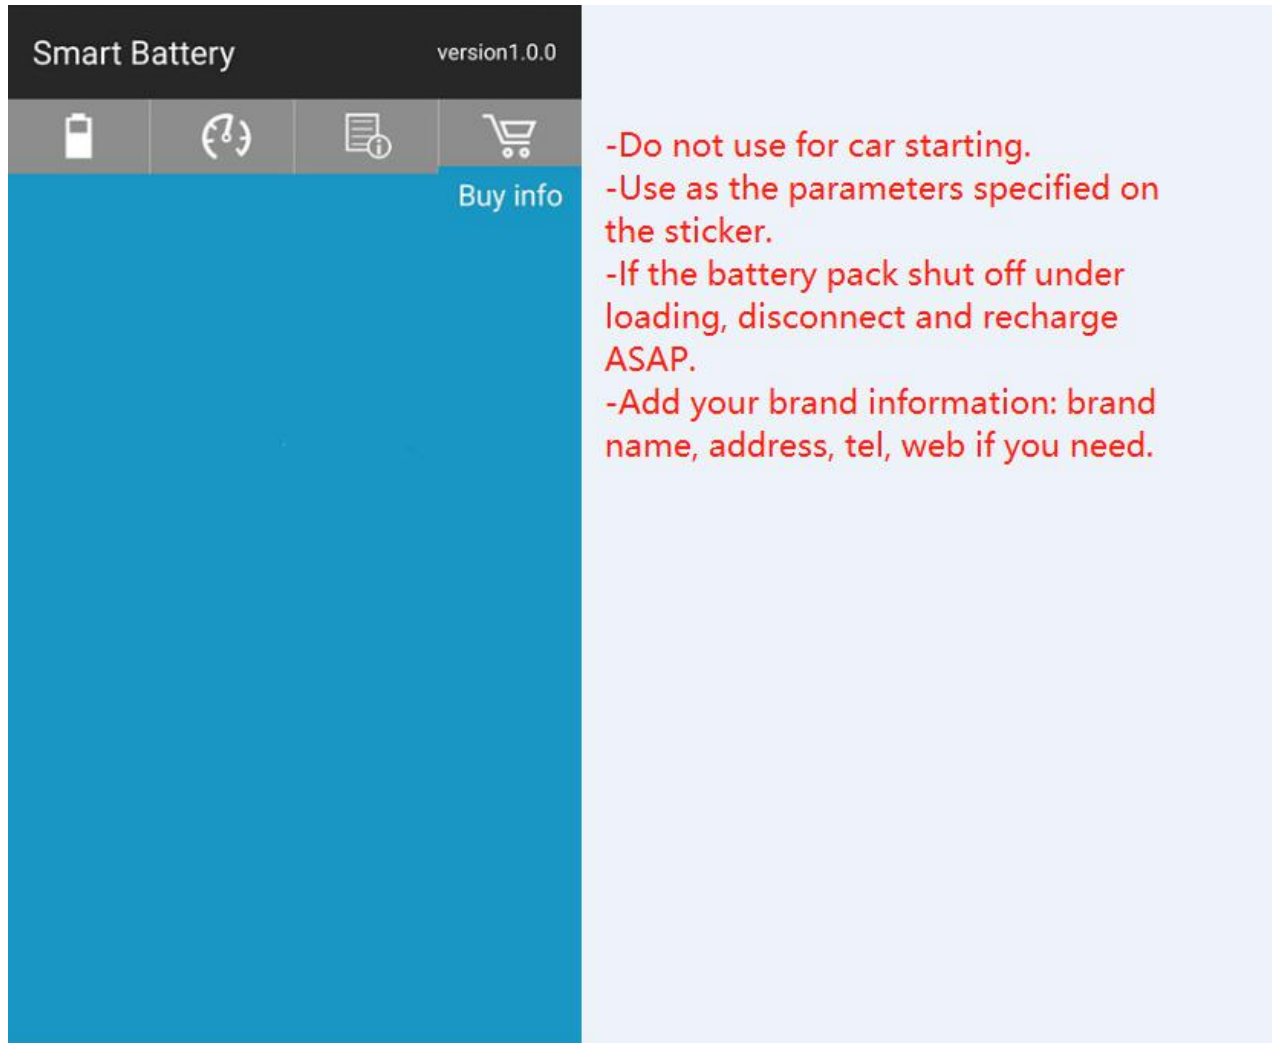

4 tips on system info page

System info will show high voltage, low voltage, over current charge, over current discharge.
